THE MOST EFFECTIVE WAY FOR UNIVERSITIES TO WIDEN AND UPDATE THEIR TEACHING OFFER AND FOR CORPORATIONS TO MATCH THE NEW REQUIREMENTS

At **EARTH**> we are deeply convinced that the multidisciplinary and comprehensive approach in teaching programmes is an added value for individuals willing to widen their know-how and for organisations willing to update their procedures and improve their efficiency.

That is the reason why our Teaching Committee is composed of Professionals with different, but integrated, backgrounds:

- Dr. Andrea Lottici: Corporate Manager, International Lecturer, Business Consultant and International Relationships Expert
- Prof. Nadia Cipullo: Professor of Planning and Control, International Lecturer, Business Economist, Chief Value Officer (CVO), Impact Assessor, Welfare Manager, Researcher in the Sustainability Sector
- Dr. Giulia Lottici: Corporate Communication Manager, PR Manager, Marketing Specialist, Researcher in the Communication Sector
- Dr. Paolo Sebastianutti: International Business Lawyer, Risk Manager, International Lecturer

Our offer is twofold:

- Consultancy for large and medium/small enterprises interested in improving, certifying and reporting their activities, operations and results/performance according to the sustainability criteria (ESG and Impact Analysis) or interested in acquiring a practical ability to evaluate energy saving opportunities;
- Teaching/training for graduate and postgraduate, researchers and professors wishing to improve their knowledge base and to conduct research activities on very relevant and up-to-date topics related to sustainability and circular economy.

Our activities and programmes are carried out both onsite and online and can be customised to match the needs of each partner.

Feel free to contact us for details and for a specific offer. We will be delighted to help you improving your competences and/or your performance. Our Value is your Value!
